

1st project meeting

When local becomes global

PROJECT NUMBER: TEH-POM-1/15

10.5.2015-13.5.2015

Participating project partners:

**Šolski center Srečka Kosovela Sežana
Vågen Videregående Skole**

**And
the host partner**

Agrupamento de escolas de Barcelos

Project description:

The project »When local becomes global«addresses the priorities of The EEA Grants and Norway Grants funding (especially Conservation and revitalisation of cultural and natural heritage). It is based on the cooperation between 3 schools, each of them strong in one part of the planned project main outcome: The new tourist product, based on heritage and implemented into the local environment for tourists. We can learn from each other the good practice examples and achieve the desired outcome as a multiplier effect.

The main objectives:

- to do a research about natural and cultural heritage
- to produce new tourist products
- to implement the products
- to organize 3 meetings by presenting the good practice examples
- to provide good dissemination material and exploitation of project results

The target groups that will benefit from the project are teachers by exchange of good practice and new teaching methods, students (intercultural experience, language skills...), participating schools, local/regional environment, tourists.

The partnership will :

- consolidate the good cooperation between schools and local environment
- to present skills and competences of our students to the working environment
- to prepare the partnership for further larger strategic projects

The main outcome of the partnership will be new developed tourist products that can be really implemented with the help of local environment. Each participating school will lead one part of the project in connection to the good practice example:

1. Research: Agrupamento de Escolas de Barcelos; meeting in Portugal
2. Development: Schol center Srečko Kosovel Sežana, meeting in Slovenia
3. Implementation: Vagen vidergaende skole, Sandnes, meeting in Norway

Each participating school will organize one international partner's meeting that can be a possibility for international cooperation between central decision makers-experts, wider cooperation in the sector, dissemination of knowledge and experience and other.

By strengthening bilateral relations partners will gain the possibility to apply for strategic partnership projects and other mobility projects.

Nr.	Description of mobilities and other activities	Country of destination (only for mobilities)	Planned start date
